

A SOLDIER'S VIEW OF THE VIETNAM WAR

The Ideal Gift

The first Vietnam Campaign history of a New Zealand Infantry Company

"A Soldiers View of the Vietnam War - The Story of Victor 4"

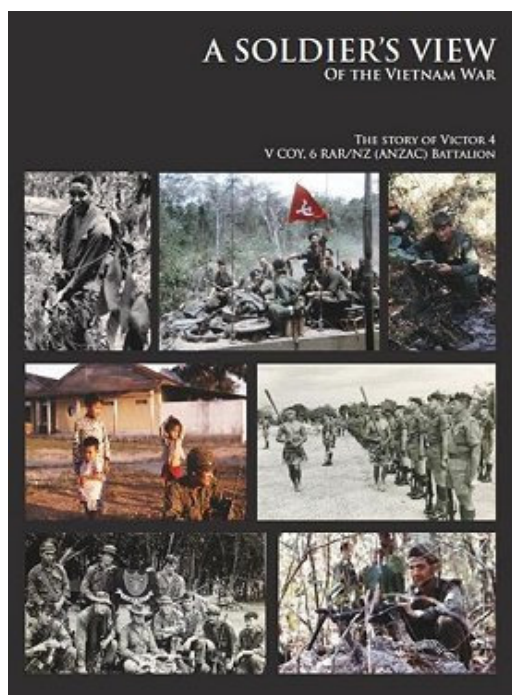

Consisting of 335 pages and 232 photographs this premium hard cover A4 book will be treasured for years to come.

"It is rare that a military history is written from the perspective of the soldier, by the soldier. This book is one of those. It is written by the officers and men of Victor 4 Company, New Zealanders who served in the Vietnam War from 1969 - 1970 who tell about their experiences in combat in a faraway land. We have written the book not to celebrate war but to tell the next generation about what we experienced. It is right we should do this for our children and for our relatives and friends so that they may know what we did. It is a testament also to those seven comrades who gave their lives for their country. May they rest in peace for eternity".

Sir Wira Gardiner

"This book is a testament to the comradeship that comes from having served together under fire. The training and leadership demonstrated by your officers, NCOs and men will provide a wonderful source of encouragement and inspiration for today's young men and women".

*Lt Gen Rhys Jones
Chief of Defence Force*
